

Dear Parishioners,

Father Jim gave the annual financial report orally the third weekend in July. He said we are doing well financially, highlighted some of the completed projects around the campus and attributed the ability to execute these improvements to the parishioners' generosity.

The Finance Council would now like to give you the detailed numbers. The following report includes:

- a) The church and school actual incomes and expenses for the last fiscal year.
- b) The Annual Giving Report breaks down the number of parishioners by the amount of their contributions. A bit more explanation is needed. Those whose contributions are made in envelopes, by check or electronically can be attributed to that specific parishioner. A great deal of cash is also given but, unless identified, it is not possible to know who offers it and how much or often they give. Visitors to our church may surely be responsible for some of the cash. Please note that cash represents almost one-sixth of our Offertory.
- c) The BAA Report is there, showing the rebate we will receive early next calendar year.

The FY 2021 – 2022 Financial Report to Parishioners is available in paper form in the narthex of the church for about a month. You may access the report on the Annunciation Parish website front page (<https://www.annunciationparish.org/>) or on the newly created Finance Council webpage (<https://www.annunciationparish.org/finance-council.html>).

Once again, our Parish is thriving financially and the outlook for the next school year is positive compared to the last one. Your continued support in “treasure” is a grace we share with each other through Our One God.

Sincerely,  
Annunciation Parish Finance Council
